

Rubric for Participation, Self-Assessment

Category	The statement that best describes my past few lab/class sessions is...	Points (circle just one #)
Working in the lab	• My partner and I discussed <i>why</i> we were doing what we did, worked effectively together, and asked the teaching faculty questions when we wanted to learn more.	9-10
	• I mostly just went through the motions in lab, but I also basically know what's going on.	7-8
	• I didn't understand the protocols but didn't ask for help, and made a big, avoidable error.	5-6
Participating in formal lecture	• I contributed at least once during the past couple of lectures (answering and/or asking a question), and was attentive.	9-10
	• I mostly paid attention, but didn't actively participate in lecture.	7-8
	• I didn't attend or slept through lecture.	5-6
Participating in pre-lab lecture	• I made regular contributions during the pre-lab lecture, asked questions when I didn't understand something, and was attentive.	9-10
	• I mostly paid attention, but didn't actively participate in lecture.	7-8
	• I disrupted the lecture by being late.	5-6
Other (above and beyond)	• I investigated and shared some interesting research related to a topic we discussed.	Up to 3 pts.
	• I asked a sophisticated question that spurred an interesting follow-up, which was later shared with the class.	_____
	• ...	
Total		___/30 pts.
